

CELEBRATE EARTH ALL YEAR LONG!

Composting is an easy way to get rid of food scraps and reduce waste.

Food scraps account for 20% or more of trash.

That's a lot of extra garbage. Let's keep Earth healthy together!

EAT YOUR
FOOD.

THROW THE
SCRAPS INTO
A COMPOST BIN.

COMPOST MIXES
WITH SOIL TO HELP
THE EARTH STAY HEALTHY
AND GROW MORE FOOD.

FOOD SCRAPS
DECOMPOSE WHICH
CREATES COMPOST.

Look for composting tips and see what goes in
your bin and what stays out at [RecycleCT.com](https://www.RecycleCT.com)
